Projects

QUIZ APP

Development of project using HTML, CSS and JS

- This application dynamically loads quiz questions, allows users to select answers, and calculates scores.
- Implemented a responsive design for usability across devices, with intuitive user interaction and a visually appealing interface styled with CSS. JavaScript managed dynamic content updates and score tracking, ensuring an engaging user experience."

SHOPPING STORE

Development of project using HTML, CSS, JS

- Developed a fully responsive online shopping store using HTML, CSS, JavaScript.
- Designed and implemented an intuitive and user-friendly interface for browsing and purchasing products.
